

Frequently Asked Questions (FAQs) - Operational Guidelines for e-trucks under the PM E-DRIVE Scheme

Q.1: Can a buyer submit multiple scrapping certificates (CDs) to meet the GVW requirement for a single new e-truck?

Yes. The incentive under the PM E-DRIVE Scheme for a new e-truck may be granted against one or more valid scrapping certificates/CDs for ICE trucks, issued by MoRTH-authorized Registered Vehicle Scrapping Facilities (RVSFs).

This is acceptable subject to the cumulative Gross Vehicle Weight (GVW) of the scrapped ICE truck(s) being equal to or greater than the GVW of the new e-truck to be purchased.

Example:

- i. *For a new 55-tonne e-truck, scrapping certificates of:*
 - a. *2 ICE trucks with GVW 28 tonnes each or*
 - b. *3 ICE trucks with GVW of 18.5 tonnes or*
 - c. *1 ICE truck of GVW 28 tonne, 1 ICE truck of GVW 15 tonne and 1 ICE truck of GVW 12 tonne each can be furnished.*
- ii. *For a new 28-tonne e-truck, scrapping certificates of:*
 - a. *3 ICE trucks with GVW 12 tonnes each or*
 - b. *1 ICE truck with GVW of 18.5 tonnes each and 1 ICE truck with GVW of 10 tonne can be furnished*
